Figures

```
create_figures(experimentData)
```

`stat_bin()` using `bins = 30`. Pick better value with `binwidth`.
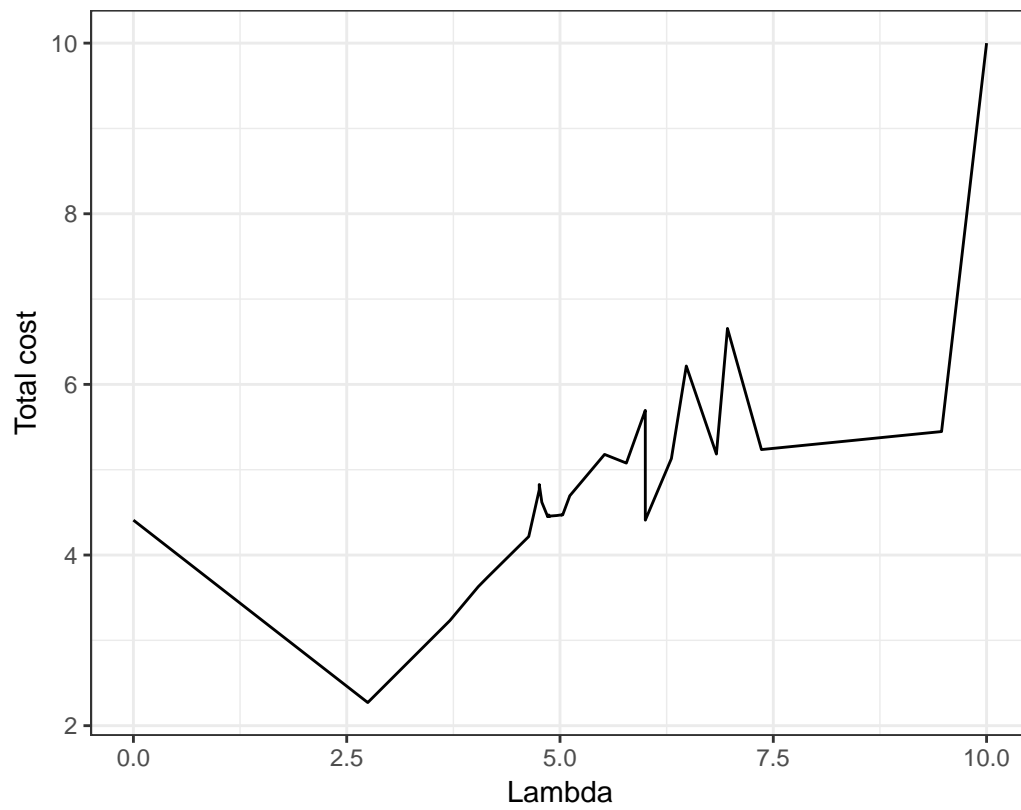

Histogram of the run−time difference between L−Shaped and SAA method
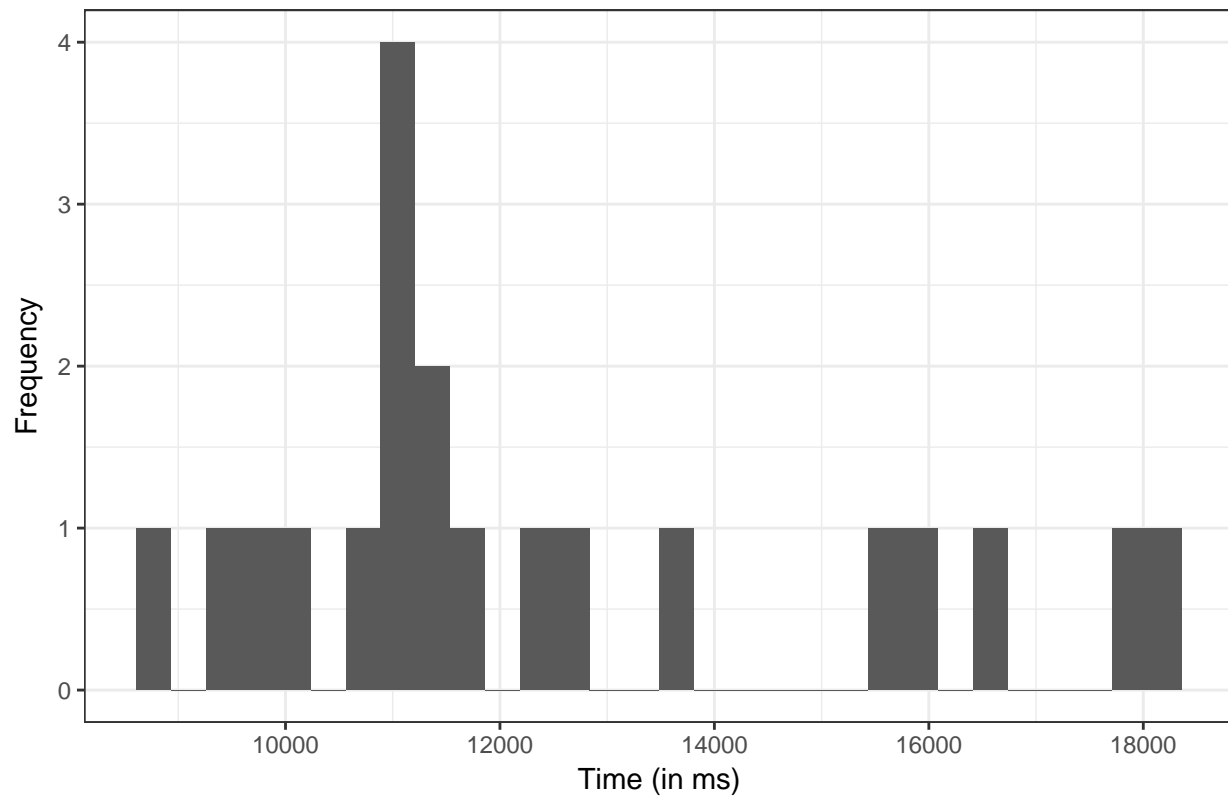

## Total cost vs. overtime cost

Value of lambda vs. total cost

`stat_bin()` using `bins = 30`. Pick better value with `binwidth`.

Histogram of the run−time difference between L−Shaped and SAA method (

`stat_bin()` using `bins = 30`. Pick better value with `binwidth`.

# Histogram of the run time of the L−Shaped method (different seeds)

```
## `stat_bin()` using `bins = 30`. Pick better value with `binwidth`.
```
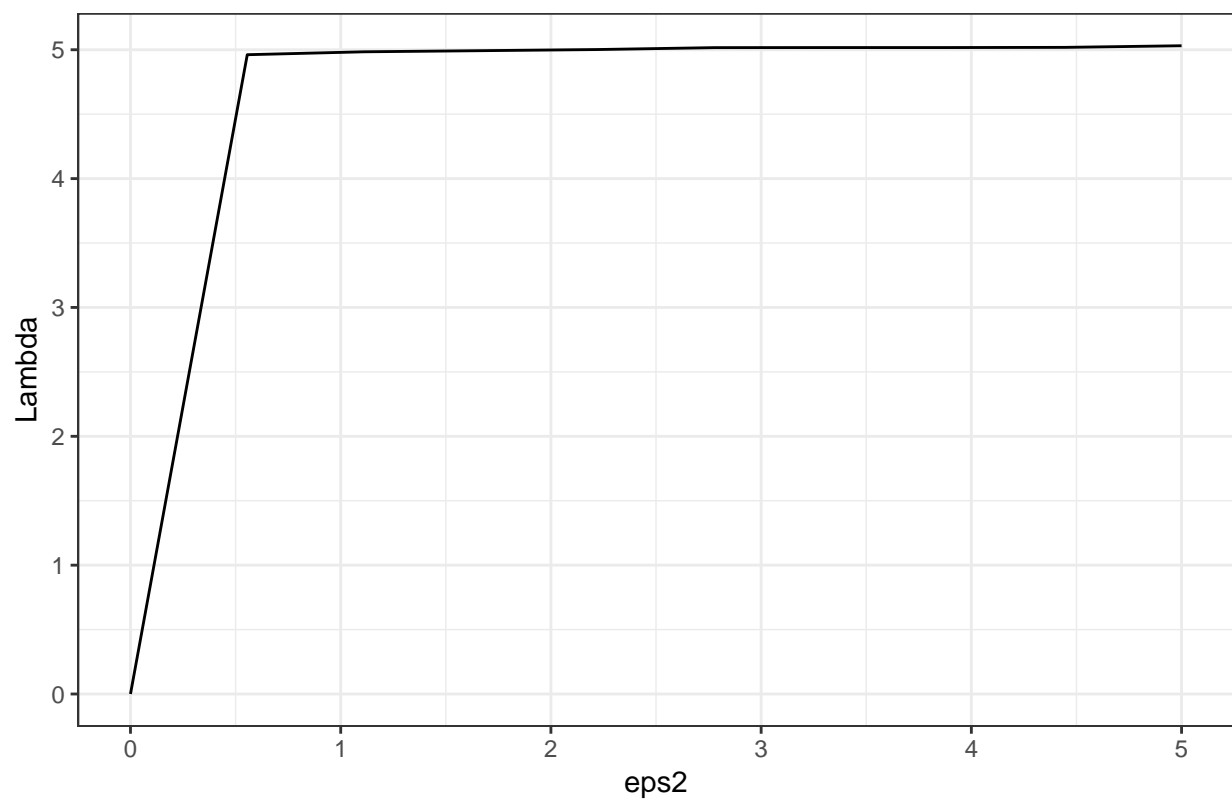

## Histogram of the run time of the SAA method (different seeds)

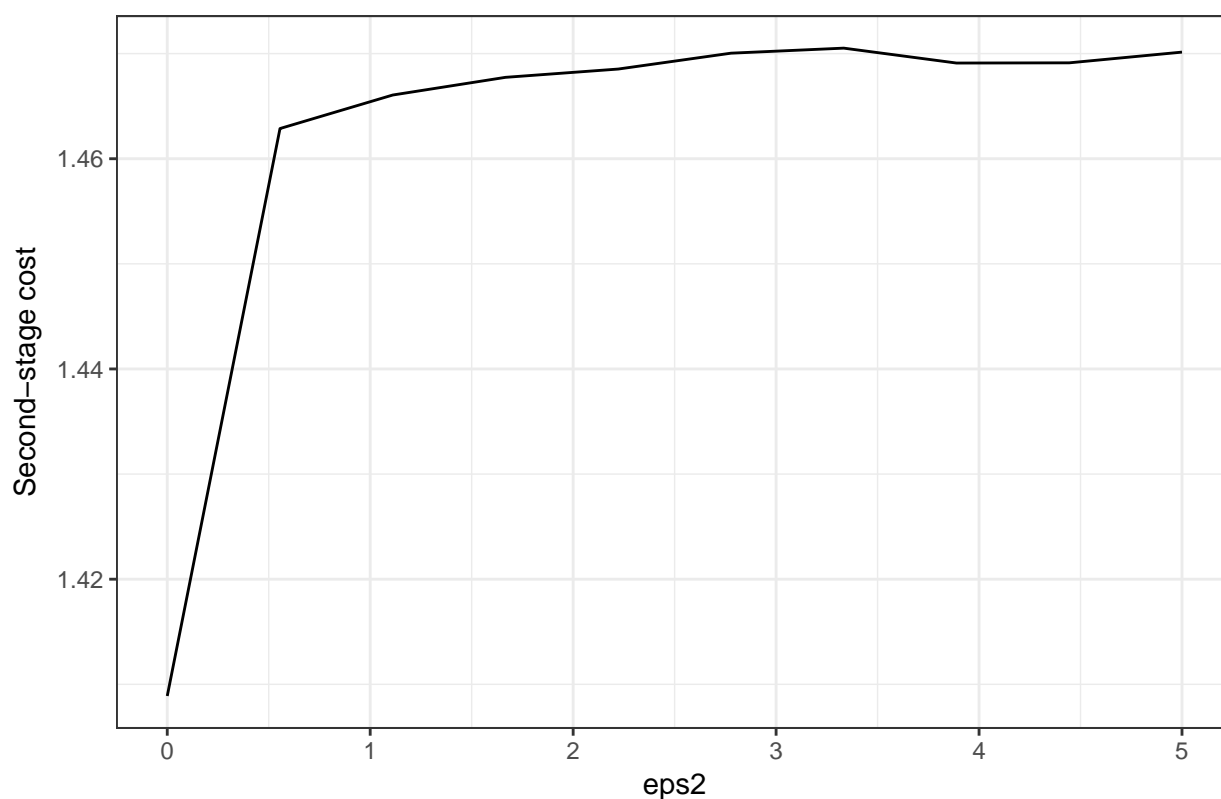

Lambda vs. eps1

Lambda vs. eps2

Second−stage cost vs. eps1

Second–stage cost vs. eps2

Costs vs. Mean surgery duration parameter

Costs vs. Std. surgery duration parameter
